EXTRA LARGE SIZE

High Water Resistant / Environmental Friendly

CAN USE SKIN HORIZONTALLY AS WELL AS VERTICALLY

Glue : E1

Masonite Doorskin (flat panel) can be used for interiors of kitchen cabinets and wardrobes. Due to use of E1 glue, it eliminates the chances of fumes. No need for cross ventilation.

Exclusive :

In order to determine which sheets size is suitable for you it is advisable to prepare the cutting plan and determine your board wastage factor. In a lot of cases with the 85"x72" board wastage is minimal. Hence more cost effective.

Available in Primed White

**FOR PERFECT SURFACE USE
TUBULAR BOARD
for DOOR FILLING**

With the flexibility of bending the flat panel, you can produce a variety of phone stands and other products.

Punched Flat Panels are prominently featured around the Peninsula Malaysia and are also used in other parts of the world

Your Home Your Canvas Your Creativity...

When you think of doing up the interior of your home or office or plan for a new one, you must also **PAY ATTENTION** to the fact that your home is a reflection of who you are and how you live. Our Masonite Malaysian Moulded Panel Series & Decorative Flat Panel Series, Elegance-Oak and Tru-Oak, will now allow you to affordably showcase your personal style and create a special environment to enjoy with those you love the most.

The door is not just an integral part of your interior but it also makes a statement about your taste & preferences. Of course, it has to be durable, but how do you make sure that it enhances the interior as well?

Now you can put an end to the **DILEMMA** of choosing the right door for your ideal combination of great quality & good looks.

We have also taken into consideration the demand for wider sizes, for Elegance / Tru-oak panel, with length of 85" inches and width of 72" inches, an **EXTRA WIDE** size.

Elegance or Tru-Oak is suitable material for "**PANEL WORK**"

**Masonite Malaysian doors make you
walk through walls !**
